mmoraza@lifeworkstrategies.com

This training, presented by Louis Kopolow, M.D., D.L.F.A.P.A., is designed to provide Mental Health Professionals with practical guidance on how to help clients create and achieve their goals. In using this model, Mental Health Professionals will also be better equipped to communicate the treatment goals/action plan to case managers and EAPs. Objectives include, learning how to:

1. Integrate four components of an effective treatment/action plan
2. Develop strategies that are aligned with your client's vision
3. Help your client stay focused and move forward
4. Successfully engage your clients in the treatment plan / goal setting process

Louis E. Kopolow, M.D., D.L.F.A.P.A., is Director of Potomac Grove Psychiatry, a multi-disciplinary private mental health group practice, one of the largest in the Washington, D.C., Suburban area. He is a Distinguished Life Fellow of the American Psychiatric Association and member of the American College of Psychiatry. He is also Clinical Assistant Professor of Psychiatry at George Washington University School of Medicine. Dr. Kopolow has been a principal investigator of research studies in depression, anxiety and bipolar illness. His clinical work includes individual, couple, group psychotherapy and medical hypnosis.
